SEAMLESS DUAL DISCHARGE SYSTEMSM

- One piece from the sump basin to the outside of your home (no seams or connections to crack or leak)
- Flexible; if water ever freezes inside the pipe it will expand rather than crack
- Standard Water installs Dual Discharge (two pipes) in case you want to add a battery backup system.
- · Dual Discharge pipes need not exit the home next to each other.

FREE FLOW BURIED DISCHARGE SYSTEM

- · Move water away from house underground
- Unobtrusive, will not compete with your landscaping
- Intake solves freezing problems in winter.
- Openings allow water to drain out next to house
- Optional de-icing cable ensures main line won't freeze up

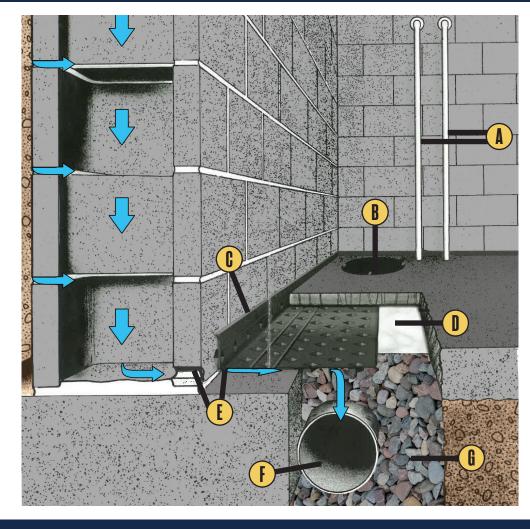

BEFORE Discharge Pipe extending Across Landscping

AFTER Discharge Pipe buried, extending unseen into yard.

SUPERIOR DRAIN TILE & SUMP PUMP SYSTEM!

- Seamless Dual Discharge Systemsm
- B Superior Sump Systemsm includes Diamond Plate[™] Cover
- C Patented Diamond Drainage Board™
- D Plastic Moisture Barrier
- E Drain Holes
- F Rigid PVC Drainage Pipe
- **G** Washed Rock

CHOOSE STANDARD FOR YOUR DRAIN TILE BECAUSE:

- Professional Installations Since 1977!
- Most Installs Done in 1 or 2 days!
- Lifetime of Structure Warranty Best in Class!
- 4 Patented Diamond Drainage Board™ for **Best Water Flow!**
- 3" Rigid Drain Tile, not corrugated, is installed next to footing not on footing, thus ensuring the best water flow! Reference U of MN study!

- Quality work by Tenured Foreman all over 20 years with Standard!
- Commercial Grade HEPA Filtration and Exhaust Fans to ventilate and remove dust for your safety and ours!
- **Commercial Grade Sump Pumps sealed with Diamond PlateSM Cover for Safety!**

THE STANDARD SUPERIOR SUMP SYSTEMSM IS BEST IN CLASS BECAUSE:

- Commercial Grade Pumps with 3, 4 and 5 Year Warranties!
- **Dual Discharge for Backup Pump and Serviceability!**
- **Dual Float Switch and Controller Sounds an alarm when** power fails, problem detected or low battery!
- Seamless Discharge SystemSM Quiet and Prevents Leaks!
- Heavy Duty Basin and Diamond PlateSM Cover. Lid is tightly sealed so pets and children don't fall in, and keeps harmful **Odors and Gases out!**
- Energy Efficient saves \$57 per year on average!
- Maintenance Free Batteries with Backup can run non-stop 6 hours!
- Many Options! Pumps, Basins, Backups, Alternating...

SP-33 SUBMERSIBLE PUMP

Industrial Grade for Residential Installation

BATTERY BACK UP SYSTEM

Insurance experts suggest homeowners install battery backup pump systems in their homes and some policies may offer a discount on premiums if a backup system is installed. We suggest you check with your insurance agent.

SP-33 SUBMERSIBLE PUMP

- Flow @ 0 ft Head 4100 GPH/68.3 GPM
- Flow @10 ft Head 2770 GPH/46.1 GPM
- Gallons per watt hour 6.1 G/Wh
- Max Head 31 ft. (9.4 m)
- Strainer Plated steel
- Discharge 1 1/2" 3.8 cm)
- Motor HP/Type HP PSC Motor
- Voltage 115 VAC, 60 Hz
- Amp. Draw @10 ft Head 3.8 Amps

SUMP BASIN & DIAMOND PLATESM COVER

- · High Quality, structural grade materials
- Cover bolts securely to basin, sealing it
- Keeps Radon & other soil gases from getting into your home
- Protects small children and pets
- Standard Water logo, website and phone number embossed on cover

SP-33 SWITCH AND CONTROLLER

- Includes Dual Float Switch. Sounds an alarm and alerts when: AC Power has failed, Pump or float problem is detected, 9v battery is low or slide switch is off
- Includes export terminals for connecting to a remote dialer or home security system (smart circuit technology)
- System is operating light flashes when active
- Adjustable run time 5-45 seconds after the water level falls (allowing for conditions specific to your home)
- Activates main pump weekly to exercise and extend pump life
- Universal controller mounting tabs

BACK UP CONTROL UNIT

- Monitors household power, battery and pump conditions
- · Triggers and runs backup pump once a week to assure proper operation
- Low fluid sensor (protects against the number one reason other battery backup systems fail)
- Tells your if water needs to be added
- Alarm will sound if a problem arises
- Alarm can be silenced
- Charger maintains the battery at full charge

BACK UP PUMP

- Pumps 2400 GPH at a 10-foot head/9.0 Amps DC
- Stainless steel shaft, rulon seal, and rust proof housing provide long-lasting, reliable operation
- Includes Dual Float Switch (the most advanced available)

BATTERY

- Can run 7 1/2 hours straight or intermittently for days
- Will remain viable for 5-7 years
- Can add a second battery for double the life
