CHOOSE STANDARD FOR YOUR EGRESS WINDOWS BECAUSE:

- 1. Window Wells Sealed and Bolted to Wall to Prevent Water Intrusion!**
- 2. Rock Drainage Field (NOT dirt) installed around, under and in Window Well to help Prevent Water Intrusion!**
- 3. Debris and Dirt removed from your property so you don't have to!**
- 4. Quality Installation by Professional Tenured Foreman - most with 20+ years experience at Standard!**
- 5. The Best Window Wells made of structural plastic won't rust or decompose!**
- 6. Outstanding Warranties!**
- 7. HEPA Filtration and hand dug holes - treating your home as if it was our own!**
- 8. Installing High Quality Windows Since 1977 - see other side!**

VECTOR WINDOWS - ENVISION CASEMENT & ADVANTAGE GLIDER WINDOWS

Featuring folding handles to eliminate interference with shades or blinds, dual weather-stripping that virtually eliminates drafts for a more comfortable, energy-efficient home, and a multi-point locking system operates from a single, low-profile lever for easy use and added security. These windows are fusion-welded, heavy-duty vinyl for low-maintenance convenience and durability, plus, the exteriors won't peel, blister, flake or corrode.

ENVISION CASEMENT

- 3 1/4" frame for strength and stability (perfect for pocket window replacement)
- Common frame construction for more consistent sight lines and strength
- Energy Star 6.0 certified with LoE 272.
- Cardinal glass *double strength minimum
- Duralite Spacer warm edge technology
- Triple pane glazing compatible for the ultimate in thermal performance
- 3-layer weather stripping for better protection from nature's elements
- Multi-point locking hardware standard for your family's security
- Vertical casement style reinforced with Innergy Thermal Reinforcement for added strength and reduced conductivity to keep your home warmer and family safer.
- Optional colors include painted exteriors and bronze or black laminate.
- Numerous extension jamb species available both applied and loose
- Retro Brickmould option is available for this product to make window replacement a snap.
- Limited Lifetime Warranty

ADVANTAGE GLIDER WINDOWS

- 2 11/16" frame for a slimmer frame profile to compliment the modern or contemporary look
- Cardinal glass *double strength minimum
- Duralite Spacer warm edge technology
- Sash ride on brass rollers for years of smooth operation
- Raised glider track is replaceable for peace of mind down the road
- Adjustable cam lock and keeper to keep your window sealed tightly
- Numerous extension jamb species available both applied and loose
- Retro -Option available to make window replacement quick and easy
- Limited Lifetime Warranty
